**Aleph Zero
Foundation**

Dear Sir and Madam,

My name is Mirza Ilham, UI designer specialist and a blockchain technology enthusiast. I get to know Aleph Zero through one of my colleagues and since then I have been in love with the chain. The reason I sent you this letter is because I want to be a part of the team, to get to know better about this project, and also to contribute for the growth of Aleph Zero.

My qualifications include my technical skill in designing and wire-framing using cross-platform design software like Photoshop, Illustrator, Premiere Pro, AdobeXD, Figma, and Sketch, as well as basic coding using HTML5, CSS3 and JS, skills that I developed during years of my professional career.

I believe that my diverse experience in the designing field from UI/UX design to web development could be an asset for Aleph Zero. You could find all information about my experience and portfolio on my website: mirzailham.com

On this occasion, I offer you a new cooperative, resilient and open-Minded colleague. I look forward to a constructive and successful cooperation from you and an invitation to a personal meeting with a great pleasure.

Yours sincerely

A handwritten signature in black ink, appearing to read 'Mirza Ilham'.
