## Mirza Ilham

Aristotelessteig 4,  
Berlin 10318  
Germany

May 4th, 2022

Dear Sir and Madam,

My name is Mirza Ilham, UI designer specialist and a blockchain technology enthusiast. I get to know Aeternity blockchain from Reddit and since then I have been following every updates regarding the blockchain. The reason I sent you this letter is because I want to be part of the team, to get to know better about this project, and also to contribute for the growth of Aeternity.

My qualifications include my technical skill in designing and wire-framing using cross-platform design software like Photoshop, Illustrator, Premiere Pro, AdobeXD, Figma, and Sketch, as well as basic coding using HTML5, CSS3 and JS, skills that I developed during years of my professional career.

I believe that my diverse experience in the designing field from UI/UX design to web development could be an asset for Aeternity. You could find all information about my experience and portfolio on my website: [mirzailham.com](http://mirzailham.com)

On this occasion, I offer you a new cooperative, resilient and open-Minded colleague. I look forward to a constructive and successful cooperation from you and an invitation to a personal meeting with a great pleasure.

Yours sincerely

A handwritten signature in black ink, appearing to read 'Mirza Ilham'. It is written in a cursive style with some vertical lines extending upwards and downwards.
